Q5: How much trust do you have in elected mayor ability to make the right decisions? A moderate amount of trust

Q6: In what city do you live?

Lehi

Q7: What would you like to see happen as the processes move forward?

Full disclosure, honesty and ultimately no changes made in boundaries, control and access to public lands in AF Canyon

Q8: How did you first hear of Snowbirds plans to expand into American Fork Canyon? Protect and Preserve American Fork Canyon on FB

Q9: What are the challenges facing American Fork Canyon that you would like to see addressed? Respondent skipped this question

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

Bad thing enviornmentally, but may be necessary. That parking lot is extremely crowded during the weekends and is a safety issue as more ATV trailers are parking along narrow roadsides. How would access be limited? Reservation? First come first serve with a cap set each day? There is no ideal solution.

Q11: Do you have any other comments, questions, or concerns?

Respondent skipped this question

Q12: Will you be attending July 1st 6pm-10pm Public Meeting at American Fork High School with Comissioner Bill Lee and State Auditor John Dougal??

Q7: What would you like to see happen as the processes move forward?

I feel like all voting should be held off until the actual stakeholders (AF and Cedar Hills residents particularly, and other vested UT county residents) have an opportunity to voice their concerns in a public hearing. I'm sick and tired of the way this is being handled, behind closed doors and the "hurry-up" process. If it is a good deal, it can wait until the public has had a chance to weigh-in. Also, I want to see the mayors of the most affected cities represent their constituents, not their pocketbooks. They are elected to represent their city, now they need to show that they deserve the trust they ask for.

**Q8: How did you first hear of Snowbirds plans to

Commissioner Ellertson needs to explain himself quickly. I have lost complete trust in him as my elected official. He has already lost my vote in any kind of re-election campaign. Bill Lee is the ONLY person who has responded to my emails (I have emailed all 3 commissioners and my city mayor). Mr. Lee has earned my vote if he chooses to run again, depending on if he can keep his promises to represent me.

Q6: In what city do you live?

American Fork

Q7: What would you like to see happen as the processes move forward?

I would like a clean and transparent process. I'd like to see the land swap in AF Canyon removed from Mountain Accord. If Snowbird is allowed to proceed with their development, there should be no public paid changes to roads and facilities in AF Canyon. In a perfect world, Snowbird stays where they are. It is unhealthy for Utah County to lose revenue to SL County as that is where Snowbird does business. Likewise, the businesses that bring revenue to UC should have first dibs on the UC workforce.

Q8: How did you first hear of Snowbirds plans to expand into American Fork Canyon? From a friend

Q9: What are the challenges facing American Fork Canyon that you would like to see addressed?

Fair process with proper representation

Remove those who accepted donations, all expense paid trip to Europe, and/or didn't include their constituents. They had their chance when elected. They have shown their ethics.

Preserve winter recreation in back country, preserve the rivers and lakes. Do not widen roads or build facilities to support Snowbirds business development without a comprehensive environmental study and Snowbirds funding.

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

A bad thing. The parking is sufficient. Increase in parking spaces increases traffic on the mountain which will have a negative impact on the environment.

**Q8: How did you first hear of Snowbirds plans to

Newspaper

Q9: What are the challenges facing American Fork Canyon that you would like to see addressed?

Don't destroy the paved roads in AF Canyon by expanding them. Make the roads a scenic byway and keep them as they are for all to have the experience of driving on such a beautiful mountain road.

Don't change what AF Canyon is and provides. It's clear that it is meeting a unique need that isn't available in other canyons and it shouldn't be changed to become like the other canyons.

Try to find a way to provide more of what there already is so more people can enjoy what it has to offer.

Don't require mass transit in the canyon. It is a canyon that is enjoyed from a vehicle. There is so much to do there and you need a vehicle to do much of it although not all of it requires a vehicle.

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

It probably needs to be expanded as the population grows but ideas need to be considered on how to limit the use on weekends and holidays when it can be overused.

Q11: Do you have any other comments, questions, or concerns?

Do not allow a gondola in AF Canyon. That would change the nature of the canyon completely and generate a different kind of use in the canyon and crowd out the uses that are already there. There are other canyons that offer a gondola experience but only AF Canyon offers what it offers. With other uses it would put pressure on expanding the roads and that would also destroy the canyon.

Q7: What would you like to see happen as the processes move forward?

Utah County must absolutely have a say in what happens with the land parcels in its county.
No commercial monopolies of what is currently public land, and limit commercial buy-outs of land, water rights, etc.

Q8: How did you first hear of Snowbirds plans to expand into American Fork Canyon? Protect and Preserve American Fork Canyon on FB

Q9: What are the challenges facing American Fork Canyon that you would like to see addressed?

Slow entrance into the fee gate area/congestion.
Parking for Timpanogos/Timpooneke trail overcrowding, with parking on the side of the road.
Narrow roadway does not easily accommodate motorist/cyclist 'share the road' travel on busy days.

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

I do not frequent Tibble Fork--do not know.

Q11: Do you have any other comments, questions, or concerns?

Utah already has a healthy, vibrant skiing community. Leave it on the other side of the mountain. They've clear-cut and carved and cordoned it off to their pleasure.

We don't need more clear-cut ridges for ski runs--they leave scars upon the mountains, especially visible in the spring/summer months.

We don't need gondolas and further commercialization and development.

As for access once the lands are sold off--ask anyone who wants to snowshoe up Big/Little Cottonwood canyons--there are all sorts of restrictions, and I know personally of people who have been asked to leave certain areas--with threat of citation if they did not.

We have the opportunity to keep *one* canyon free of all the clutter and 'noise' and control commercial development inevitably brings.

American Fork canyon should continue to be the public, multi-use canyon it is--for generations to come.

It would be shame to let a few people with big pockets and back-door deals change all of that.

Safety for non-motorized users, i.e. cyclists. Many drive far too fast for the windy roads, and some structural change to reflect the current user groups would be fantastic.

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

Parking does tend to run down the canyon on the sides of the road when it's super busy, but I can't justify building for the busiest part of the season only to have it sit empty for significant portions of the year.

Q11: Do you have any other comments, questions, or concerns?

Mayor Gygi and others who are being bullheaded about this are absolutely in the wrong and must focus on what the general populace has to say. Protect the canyon and leave it alone.

Q7: What would you like to see happen as the processes move forward?

Mayor Gygi to take himself out of ALL dealings here. He is obviously being bought and making decisions according to that. Everyone needs to do the right thing and leave the canyon the way it is. No snowbird! No gondola! No ski resort or condos. Protect and preserve this canyon the way it is.

Q8: How did you first hear of Snowbirds plans to expand into American Fork Canyon? Protect and Preserve American Fork Canyon on FB

Q9: What are the challenges facing American Fork Canyon that you would like to see addressed?

None!!!!

Q10: Is expanding parking at Tibble Fork a good thing or a bad thing? How many vehicles should be limited in that area?

Leave it alone. It is ample!

Q11: Do you have any other comments, questions, or concerns?

Mayor Gygi is not doing his job for the people he represents. He needs to be Gone! Snowbird is corrupt in their dealings, sneaking around cities and officials who should have the opportunity to voice their opinions. This whole process is being handled in corrupt fashion. I don't trust any of them.

**Q12: Will you be attending July 1st 6pm-10pm
Public Meeting at American Fork High School with
Comissioner Bill Lee and State Auditor John
Dougal??**
