Ted,

I will be out from May 15 thru the 31. My participation is not necessary: Please go on without me. I do think you should invite people from the State of Utah, however.

The plan was to tie this May 27th trip into another trip earlier that week in Idaho that involves many of the TU people and to do it while the congressional people are out of session. I don't know their schedules - Chris is coordinating that. Let me know if the 27th (not the 28th) is impossible for you and I will pass that along to Chris and Kira.
Ted

I will not be able to attend on May 28th. How about the first
week of
June ?

trip - This may not be a very good way to alert you to a potential field
of AFC but I do want you to know about this potential congressional tour
are - and your on the list of potential attendees. Chris and Kira
arrangements making the official contacts so there will be more info as
for solidify or fall apart. The date of this tour is tentatively set
Pacific Mine May 27. Now for the fun part - we intend to not only visit
completed, to observe the work that has been done and still needs to be
intend as well as the other sites reclaimed by the FS project, but also
I have to go into Mary Ellen Gulch to the Live Yankee and Globe Mines.
Taking told TU headquarters that the way to see all this is by ATV.
not full sized 4-wheel drive vehicles into Mary Ellen is possible but
there. adviseable - narrow and rough - I won't take my personal pickup
of the It is a good example though of the difficulties involved in many
Sound abandoned mines in the west.
If we get all these people involved it will be quite an outing.
interesting?
Ted

I agree. Ted and I are scheming on a trip-tour of American Fork on May 27ish. It's still tentative, but could be timing as Congress is out of session then. Here is a preliminary invitees that Kira and I came up with. Ted and Alan, please feel to add-subtract as you see fit.

Cannon, Hatch, and Bennett DC staff
"" UT staff
Ted
Alan
Forest Supervisor
Jim Baker, Sundance (or is it Snowbird?)
District Ranger
Kennecott DC staff and local rep
Mike Kowalski (or rep), Tiffany & Co.
Kerry Anderson, True North Foundation
Carol Russell, EPA
Governor Leavitt
Governor Walker
Superintendent of Park (Monument)
me/Kira

like
Alan
in the
in the

It's a big list, but not everyone will attend. I'd also to invite the right Deseret News and SLT reporter (your call and Ted. I have a bias toward, and have worked with Tom Wharton past, but your call). That should ensure we whack it fairly well Utah paper.

Thoughts?

Chris
